GLENN RAVENBERG, Registered Surveyor

Certificate No. 3835 DATE 7-5-89  
STATE of UTAH

1. Geological Name of Surface Formation

- (A) Duchesne River Formation of Eocene Age

2. Tops of Important Geological Markers

- (A) Uintah (Approx. 2000 Ft.)  
(B) Green River (Approx. 4700 Ft.)

3. Estimated Depths of Anticipated Water, Oil or Gas

- (A) Gas anticipated at 4700 Ft. in Green River Formation

4. Proposed Casing Program

±9,800 Ft. of 7" casing A.P.I. 26 & 29 Lbs. per Ft. All pipe to be purchased as new.

5. Specifications For Pressure Control Equipment

- (A) 5 1/2 inch series 5000 Lbs. Double Hydraulic B.O.P. with Pipe Rams and Blind Rams.  
(B) B.O.P. to be pressure tested before spudding and daily testing of closing units and rams while drilling

6. Proposed Circulating Medium

- (A) Brine water is proposed to be used unless additional weight is needed to control pressures or heaving shale. In this event a chemical-gel fresh water mud will be used and Barite as needed to control pressure.

7. Auxiliary Equipment to be Used

- (A) Upper Kelley Cock  
(B) Float at Bit  
(C) Floor T.I.W. Valve (stabbing valve) for drill pipe  
(D) Gas Detector Logging Unit

8. Testing, Logging, and Coring Program

- (A) Drill Stem Test of Green River Formation  
(B) Will run Gamma-Neutron, Caliper, and Density Logs (Density Log is Optional)

9. Anticipated Abnormal Pressures, Temperatures, or Hazards

- (A) No abnormal pressures expected  
(B) No Hydrogen Sulfide Gas expected

10. Starting Date and Duration of Operations

- (A) Anticipated starting date ASAP  
(B) This well is anticipated to be drilled in approximately 30 days.

NOTE: BLOWOUT PREVENTER HAS DOUBLE RAMS;  
ONE BLIND AND ONE PIPE RAM.

## OIL AND GAS LEASE

165  
183

AGREEMENT, Made and entered into this 3rd 5<sup>th</sup> day of July, 1981  
by and between Irene Covey Gaddis, Stephen R. Gaddis, and John M. R. Covey, as Personal  
Representatives of the Estate of S. G. Covey, deceased, of P. O. Box 632, Salt Lake City,  
Utah 84101

Party of the first part, hereinafter called lessor (whether one or more) and  
Gulf Oil Corporation, P.O. Box 2519, Casper, Wyoming 82602 Party of the second part, hereinafter called lessee.

WITNESSETH, That the said lessor, for and in consideration of Ten & More Dollars  
cash in hand paid, receipt of which is hereby acknowledged and of the covenants and agreements hereinafter contained on the part of the lessee to be paid, kept  
and performed, has granted, demised, leased, and let and by these presents does grant, demise, lease and let unto the said lessee, its successors and assigns, for  
the sole and only purposes of surveying by geological, geophysical and all other methods, mining and operating for oil, condensate, gas, asphalt, sulphur, and  
all other minerals or substances, whether similar or dissimilar, that may be produced from any well drilled by lessee on the leased premises hereinafter describ-  
ed, and laying pipe lines, and building tanks, power stations and structures thereon to produce, save and take care of said products, all that certain tract of  
land, together with any reversionary rights therein, situate in the County of Duchesne  
State of Utah, described as follows, to wit:  
Township 3 South, Range 5 West, USM  
Section 24: The East 50 rods of the W $\frac{1}{2}$ E $\frac{1}{2}$   
Section 25: W $\frac{1}{2}$ NE $\frac{1}{4}$

This lease covers all of the land described above including any interests therein that any signatory hereto has the right or power to lease, and in addition it  
covers, and there is hereby granted leased and let, upon the same terms and conditions as herein set forth, all lands now or hereafter owned or claimed by  
Lessor, adjacent, contiguous, or a part of the tract or tracts described above, whether such additional lands be owned or claimed by deed, limitation, or other-  
wise, or are fenced or unfenced, and whether such lands are inside or outside of the metes and bounds description set forth above. This lease shall be effective to  
cover all such land irrespective of the number of acres contained therein, but the land included within this lease is estimated to comprise -180.00-  
acres, whether actually more or less.

It is agreed that this lease shall remain in force for a term of five (5) years from July 20, 1981, and as long thereafter as oil, condensate, gas, asphalt, sulphur, or other  
minerals or substances covered hereby, or either or any of them, is produced from said land by the lessee, its successors and assigns.

Lessee covenants and agrees to pay lessor as royalty on all oil, condensate, gas, asphalt and other minerals and substances produced, saved and sold from  
the Premises one-eighth of the gross proceeds received from the sale thereof at the mouth of the well, or, if not sold at the mouth of the well but sold or used off  
the Premises or for the manufacture of gasoline or any other product, then one-eighth of the market value thereof at the mouth of the well; except that the roy-  
alty on sulphur shall be 50% per long ton marketed; lessor shall have gas free of cost from any gas well producing natural hydrocarbon gas for all stoves and all in-  
side light in the principal dwelling house on such land by making his own connections with the well at his own risk and expense.

If no well be commenced on said land on or before one year from the date hereof, this lease shall terminate as to both parties, unless the lessee on or before  
that date shall pay or tender to the lessor or to the lessor's credit in the Zion's First National Bank, One South Main  
Bank at Salt Lake City, Utah 84101

or its successor or successors, or any bank with which it may be merged, or consolidated or which succeeds to its business or assets or any part thereof, by pur-  
chase or otherwise, which shall continue as the depository regardless of changes in the ownership of the said land, the sum of One Hundred Eighty & no/100 Dollars.

which shall operate as a rental and cover the privilege of deferring the commencement of a well for twelve months from said date. In like manner and upon like  
payments or tenders the commencement of a well may be further deferred for like periods of the same number of months successively. And it is understood and  
agreed that the consideration first recited herein, the down payment, covers not only the privileges granted to the date when said first rental is payable as  
aforesaid, but also the lessee's option of extending that period as aforesaid, and any and all other rights conferred. Rentals may be paid by check or draft and  
may be remitted by mail. Mailing of rental on or before the rental-paying date shall be deemed a timely tender thereof and shall preclude termination of this  
lease. Notwithstanding the death of the lessor, or his successor in interest, the payment or tender of rentals in the manner provided above shall be binding on the  
heirs, devisees, executors and administrators of such person.

Should any well drilled on the land above described be a dry hole or cease to produce and there are no other producing well or wells on the land or drilling  
operations are not being conducted thereon, then and in that event if a well is not commenced before the next ensuing rental-paying date after the expiration of  
ninety (90) days from the date of such dry hole or cessation of production, this lease shall terminate as to both parties, unless the lessee, on or before the rental-  
paying date next ensuing after the expiration of ninety (90) days from the date of the completion of the dry hole or cessation of production, shall resume the pay-  
ment of rentals in the same amount and in the same manner as hereinbefore provided, and it is agreed upon resumption of the payment of rentals, as above pro-  
vided, the last preceding paragraph hereof, governing the payment of rentals and the effect thereof, shall continue in force as though there had been no inter-  
ruption in the rental payment. If a dry hole should be drilled or if production ceases at any time subsequent to ninety (90) days prior to the beginning of the last  
year of the primary term, no rental payment or operations are necessary in order to keep the lease in force during the remainder of the primary term. If, after  
the expiration of the primary term hereof, production shall cease from any cause, this lease shall not terminate if lessee resumes operations for the drilling of a  
well or restoration of production within ninety (90) days from such cessation, and this lease shall remain in force and effect during the prosecution of such opera-  
tions and, if production results therefrom, then as long thereafter as such production continues.

If at any time, either before or after the expiration of the primary term of this lease, there is any gas well on the lands covered hereby, or on other lands with  
which said lands are pooled or unitized, which is capable of producing in paying quantities, but which is shut-in either before or after production therefrom, and  
the production therefrom is not being sold or used, lessee agrees to pay or tender to the mineral owners in the depository bank named in the lease, as royalty, a  
sum equal to the amount of delay rentals payable under this lease. Such payments shall be made on or before the shut-in royalty payment date, as herein defin-  
ed, next accruing after the expiration of ninety (90) days from the date the well was shut-in, unless prior to such date gas from the well is produced and sold or  
used. In like manner, on or before each succeeding shut-in royalty payment date while such gas well remains shut-in, lessee shall make payment of shut-in gas  
royalty in the same amount and manner. A shut-in gas well capable of producing in paying quantities shall be considered under all provisions of this lease as a  
producing well and this lease shall be in force and effect in like manner as though the gas therefrom were actually being produced and sold or used. The term  
"gas well" shall include wells capable of producing natural gas, condensate, distillate, or any gaseous substance, and wells classified as gas wells by any govern-  
mental authority. The term "shut-in royalty payment date" shall mean any rental-paying date of this lease if within the primary term, or any subsequent an-

In the event shut in gas royalties as defined herein become due  
and payable under the terms of this lease, the amount thereof shall  
be computed on the basis of \$ 1.00 per acre.

Lessor acknowledges payment in full of all delay rentals to be  
paid under the terms and provisions of this lease, and in considera-  
tion thereof agrees that this lease shall continue in full force and  
effect for the term herein provided without the further payment of  
any delay rentals and that no conveyance or transfer of all or any  
part of Lessor's interest in the leased premises of any part thereof  
shall entitle the grantee or transferee to the payment of any delay  
rentals hereunder.

OIL AND GAS LEASE

AGREEMENT. Made and entered into this 3rd 5<sup>th</sup> day of July, 1981  
by and between Irene Covey Gaddis, Stephen R. Gaddis, and John M. R. Covey, as Personal  
Representatives of the Estate of S. G. Covey, deceased, of P. O. Box 632, Salt Lake City,  
Utah 84101

Party of the first part, hereinafter called lessor (whether one or more) and  
Gulf Oil Corporation, P.O. Box 2619, Casper, Wyoming 82602 Party of the second part, hereinafter called lessee.

WITNESSETH. That the said lessor, for and in consideration of Ten & More Dollars  
cash in hand paid, receipt of which is hereby acknowledged and of the covenants and agreements hereinafter contained on the part of the lessee to be paid, kept  
and performed, has granted, demised, leased, and let and by these presents does grant, demise, lease and let unto the said lessee, its successors and assigns, for  
the sole and only purposes of surveying by geological, geophysical and all other methods, mining and operating for oil, condensate, gas, asphalt, sulphur, and  
all other minerals or substances, whether similar or dissimilar, that may be produced from any well drilled by lessee on the leased premises hereinafter describ-  
ed, and laying pipe lines, and building tanks, power stations and structures thereon to produce, save and take care of said products, all that certain tract of  
land, together with any reversionary rights therein, situate in the County of Duchesne  
State of Utah, described as follows, to wit:

Township 3 South, Range 5 West, USM

Section 24: The East 50 rods of the W $\frac{1}{2}$ E $\frac{1}{2}$

Section 25: W $\frac{1}{2}$ NE $\frac{1}{4}$

This lease covers all of the land described above including any interests therein that any signatory hereto has the right or power to lease, and in addition it  
covers, and there is hereby granted leased and let, upon the same terms and conditions as herein set forth, all lands now or hereafter owned or claimed by  
Lessor, adjacent, contiguous, or a part of the tract or tracts described above, whether such additional lands be owned or claimed by deed, limitation, or other-  
wise, or are fenced or unfenced, and whether such lands are inside or outside of the metes and bounds description set forth above. This lease shall be effective to  
cover all such land irrespective of the number of acres contained therein, but the land included within this lease is estimated to comprise -180.00-  
acres, whether actually more or less.

It is agreed that this lease shall remain in force for a term of five (5) years from July 20, 1981, and as long thereafter as oil, condensate, gas, asphalt, sulphur, or other  
minerals or substances covered hereby, or either or any of them, is produced from said land by the lessee, its successors and assigns.

Lessee covenants and agrees to pay lessor as royalty on all oil, condensate, gas, asphalt and other minerals and substances produced, saved and sold from  
the Premises ~~one eighth~~ of the gross proceeds received from the sale thereof at the mouth of the well, or, if not sold at the mouth of the well but sold or used off  
the Premises or for the manufacture of gasoline or any other product, then ~~one eighth~~ of the market value thereof at the mouth of the well; except that the royal-  
ty on sulphur shall be 50¢ per long ton marketed; lessor shall have gas free of cost from any gas well producing natural hydrocarbon gas for all stoves and all in-  
side lights in the principal dwelling house on such land by making his own connections with the well at his own risk and expense.

If no well be commenced on said land on or before one year from the date hereof, this lease shall terminate as to both parties, unless the lessee on or before  
that date shall pay or tender to the lessor or to the lessor's credit in the Zion's First National Bank, One South Main  
Bank at Salt Lake City, Utah 84101

or its successor or successors, or any bank with which it may be merged, or consolidated or which succeeds to its business or assets or any part thereof, by pur-  
chase or otherwise, which shall continue as the depository regardless of changes in the ownership of the said land, the sum of One Hundred Eighty & no/100 Dollars,  
which shall operate as a rental and cover the privilege of deferring the commencement of a well for twelve months from said date. In like manner and upon like

niversary thereof, if after the primary term, or any anniversary date of this lease if no rental-paying date is specified herein.

If said lessor owns a less interest in the above described land than the entire and undivided fee simple estate therein, then the royalties and rentals herein  
provided shall be paid the lessor only in the proportion which his interest bears to the whole and undivided fee. However, such rentals shall be increased at the  
next succeeding rental anniversary after lessee has been notified of any reversion having occurred to cover the interest so acquired. Any interest in the produc-  
tion from the above described land to which the interest of lessor may be subject shall be deducted from the royalties provided for herein.

Lessee shall have the right to use, free of cost, gas, oil and water produced on said land for its operations thereon, except water from wells of lessor. Lessee  
shall have the right at any time to remove all machinery and fixtures placed on said premises, including the right to draw and remove casing.

Lessee shall pay for damages caused by its operations to growing crops on said lands. When requested by the lessor, lessee shall bury his pipe lines below  
plow depth. No well shall be drilled nearer than 200 feet to the house or barn now on said premises, without the written consent of the lessor.

Lessee shall have the right to drill to completion with reasonable diligence and dispatch (1) any well commenced within the term of this lease and (2) any  
well commenced before the completion of a well which has been commenced within such term. If oil, gas or any other minerals or substances covered hereby be  
found in paying quantities in any such well, this lease shall continue and be in force with like effect as if such well had been completed within the term of year  
herein first mentioned.

Lessee is hereby granted the right and power at any time and from time to time to unitize or pool this lease, in whole or in part, as to any stratum or strata,  
with lands or leases adjacent to or in the immediate vicinity of the leased premises, so as to constitute a unit or units not exceeding in area the acreage prescribed  
or required in any Federal or State law, order, rule or regulation for the drilling or operation of one well or for obtaining the maximum allowable production  
from one well, or (40 acres (plus a tolerance of 10% where necessary to avoid splitting leases) each, whichever is the larger. Such pooling shall be effected by  
lessee's executing and filing in the office where this lease is recorded a Pooling Declaration identifying and describing the pooled acreage. The discovery and  
production of pooled substances and development and operation on any portion of a unit so pooled, including the commencement, drilling, completion and  
operation of a well thereon and the existence of a shut-in gas well thereon, shall be considered and construed and shall have the same effect, except for the pay-  
ment of royalty, as discovery, production development, operation and the existence of a shut-in gas well on the leased premises under the terms of this lease.  
The royalties herein provided shall accrue and be paid to lessor on pooled substances produced from any unit in the proportion only in the proportion, that  
lessor's acreage interest in the land covered hereby and placed in the unit bears to the total acreage of all land in the unit.

If the estate of either party hereto is assigned and the privilege of assigning in whole or in part is expressly allowed, the covenants hereof shall extend to their heirs, executors, administrators, successors or assigns, but no change in the ownership of the land or assignment of rentals or royalties shall be binding on the lessee until after the lessee has been furnished with a written transfer or assignment or a certified copy thereof; and it is hereby agreed in the event this lease shall be assigned as to a part or parts of the above described lands and the assignee or assignees of such part or parts shall fail or make default in the payment of the proportionate part of the rents due from him or them, such default shall not operate to defeat or affect this lease insofar as it covers a part or parts of said lands which the said lessee or any assignee thereof shall make due payment of said rentals. As assignment of this lease, in whole or in part, shall as to the extent of such assignment relieve and discharge the lessee of all obligations hereunder.

Compliance with any now or hereafter existing act, bill or statute purporting to be enacted by any Federal or State legislative authority, or with orders, judgments, decrees, rules, regulations made or promulgated by State or Federal Courts, State or Federal offices, boards, commissions or committees purporting to be made under authority of any such act, bill or statute, shall not constitute a violation of any of the terms of this lease or be considered a breach of any clause, obligation, covenant, undertaking, condition or stipulation contained herein, nor shall it be or constitute a cause for the termination, forfeiture, reversion or revesting of any estate or interest herein and hereby created and set out, nor shall any such compliance confer any right of entry or become the basis of any action for damages or suit for the forfeiture or cancellation hereof; and while any such purport to be in force and effect they shall, when complied with by lessee or assigns, to the extent of such compliance operate as modifications of the terms and conditions of this lease where inconsistent therewith.

Lessee may at any time surrender this lease, in whole or in part, by delivering or mailing a release to the the lessor, or by placing a release of record in the proper county.

Lessor hereby releases and relinquishes any right of homestead, dower or courtesy they or either of them may have in or to the leased land.

Lessor hereby warrants and agrees to defend the title to the lands herein described, and agrees that the lessee shall have the right at any time to redeem from lessor, by payment, any mortgage, taxes or other liens on the above described lands in the event of default of payment by lessor, and be subrogated to the rights of the holder, and such payments may be deducted from any rental or royalties which may be payable to lessor hereunder.

This lease and all its terms, conditions and stipulations binds each executing lessor and shall extend to and be binding on his assigns, heirs and devisees and successors, and those of the lessee, though unsigned by other lessors named herein.

IN WITNESS WHEREOF, We sign the day and year first above written.

# OIL AND GAS LEASE

173  
615

AGREEMENT, Made and entered into this 15th day of March, 19 82  
by and between First Interstate Bank of Utah, as Trustee of the  
Thomas E. Jeremy Family Trust  
175 South Main  
Salt Lake City, Utah 84111 Party of the first part, hereinafter called lessor (whether one or more) and  
Gulf Oil Corporation, P.O. Box 2619, Casper, Wyoming 82602 Party of the second part, hereinafter called lessee.

WITNESSETH, That the said lessor, for and in consideration of Ten and More Dollars cash in hand paid, receipt of which is hereby acknowledged and of the covenants and agreements hereinafter contained on the part of the lessee to be paid, kept and performed, has granted, demised, leased, and let and by these presents does grant, demise, lease and let unto the said lessee, its successors and assigns, for the sole and only purposes of surveying by geological, geophysical and all other methods, mining and operating for oil, condensate, gas, asphalt, sulphur, and all other minerals or substances, whether similar or dissimilar, that may be produced from any well drilled by lessee on the leased premises hereinafter described, and laying pipe lines, and building tanks, power stations and structures thereon to produce, save and take care of said products, all that certain tract of land, together with any reversionary rights therein, situate in the County of Duchesne

State of Utah described as follows, to wit:  
Township 3 South, Range 5 West, U.S.M.  
Section 13: E $\frac{1}{2}$ SE $\frac{1}{4}$   
Section 24: East 50 rods of W $\frac{1}{2}$ E $\frac{1}{2}$   
Section 25: W $\frac{1}{2}$ NE $\frac{1}{4}$

Receipt 5-23-88 SK 227 Pg. 1-852

This lease covers all of the land described above including any interests therein that any signatory hereto has the right or power to lease, and in addition it covers, and there is hereby granted leased and let, upon the same terms and conditions as herein set forth, all lands now or hereafter owned or claimed by Lessor, adjacent, contiguous, or a part of the tract or tracts described above, whether such additional lands be owned or claimed by deed, limitation, or otherwise, or are fenced or unfenced, and whether such lands are inside or outside of the metes and bounds description set forth above. This lease shall be effective to cover all such land irrespective of the number of acres contained therein, but the land included within this lease is estimated to comprise -260.00- acres, whether actually more or less.

It is agreed that this lease shall remain in force for a term of five (5) years from date, and as long thereafter as oil, condensate, gas, asphalt, sulphur, or other minerals or substances covered hereby, or either or any of them, is produced from said land by the lessee, its successors and assigns.

Lessee covenants and agrees to pay lessor as royalty on all oil, condensate, gas, asphalt and other minerals and substances produced, saved and sold from the Premises one eighth of the gross proceeds received from the sale thereof at the mouth of the well, or, if not sold at the mouth of the well but sold or used off the Premises or for the manufacture of gasoline or any other product, then one eighth of the market value thereof at the mouth of the well; except that the royalty on sulphur shall be 50¢ per long ton marketed; lessor shall have gas free of cost from any gas well producing natural hydrocarbon gas for all stoves and all inside lights in the principal dwelling house on such land by making his own connections with the well at his own risk and expense.

If no well be commenced on said land on or before one year from the date hereof, this lease shall terminate as to both parties, unless the lessee on or before that date shall pay or tender to the lessor or to the lessor's credit in the First Interstate Bank of Utah  
175 South Main Bank at Salt Lake City, Utah 84111  
or its successor or successors, or any bank with which it may be merged, or consolidated or which succeeds to its business or assets or any part thereof, by purchase or otherwise, which shall continue as the depository regardless of changes in the ownership of the said land, the sum of Two Hundred Sixty and no/100 Dollars, which shall operate as a rental and cover the privilege of deferring the commencement of a well for twelve months from said date. In like manner and upon like payments or tenders the commencement of a well may be further deferred for like periods of the same number of months successively. And it is understood and agreed that the consideration first recited herein, the down payment, covers not only the privileges granted to the date when said first rental is payable as aforesaid, but also the lessee's option of extending that period as aforesaid, and any and all other rights conferred. Rentals may be paid by check or draft and may be remitted by mail. Mailing of rental on or before the rental-paying date shall be deemed a timely tender thereof and shall preclude termination of this lease. Notwithstanding the death of the lessor, or his successor in interest, the payment or tender of rentals in the manner provided above shall be binding on the heirs, devisees, executors and administrators of such person.

Should any well drilled on the land above described be a dry hole or cease to produce and there are no other producing well or wells on the land or drilling operations are not being conducted thereon, then and in that event if a well is not commenced before the next ensuing rental-paying date after the expiration of ninety (90) days from the date of such dry hole or cessation of production, this lease shall terminate as to both parties, unless the lessee, on or before the rental-paying date next ensuing after the expiration of ninety (90) days from the date of the completion of the dry hole or cessation of production, shall resume the payment of rentals in the same amount and in the same manner as hereinbefore provided, and it is agreed upon resumption of the payment of rentals, as above provided, the last preceding paragraph hereof, governing the payment of rentals and the effect thereof, shall continue in force as though there had been no interruption in the rental payment. If a dry hole should be drilled or if production ceases at any time subsequent to ninety (90) days prior to the beginning of the last year of the primary term, no rental payment or operations are necessary in order to keep the lease in force during the remainder of the primary term. If, after the expiration of the primary term hereof, production shall cease from any cause, this lease shall not terminate if lessee resumes operations for the drilling of a well or restoration of production within ninety (90) days from such cessation, and this lease shall remain in force and effect during the prosecution of such operations and, if production results therefrom, then as long thereafter as such production continues.

If at any time, either before or after the expiration of the primary term of this lease, there is any gas well on the lands covered hereby, or on other lands with which said lands are pooled or unitized, which is capable of producing in paying quantities, but which is shut-in either before or after production therefrom, and the production therefrom is not being sold or used, lessee agrees to pay or tender to the mineral owners in the depository bank named in the lease, as royalty, a sum equal to the amount of delay rentals payable under this lease. Such payments shall be made on or before the shut-in royalty payment date, as herein defined, next accruing after the expiration of ninety (90) days from the date the well was shut-in, unless prior to such date gas from the well is produced and sold or used. In like manner, on or before each succeeding shut-in royalty payment date while such gas well remains shut-in, lessee shall make payment of shut-in gas royalty in the same amount and manner. A shut-in gas well capable of producing in paying quantities shall be considered under all provisions of this lease as a producing well and this lease shall be in force and effect in like manner as though the gas therefrom were actually being produced and sold or used. The term "gas well" shall include wells capable of producing natural gas, condensate, distillate, or any gaseous substance, and wells classified as gas wells by any governmental authority. The term "shut-in royalty payment date" shall mean any rental-paying date of this lease if within the primary term, or any subsequent anniversary thereof, if after the primary term, or any anniversary date of this lease if no rental-paying date is specified herein.

If said lessor owns a less interest in the above described land than the entire and undivided fee simple estate therein, then the royalties and rentals herein

In the event shut in gas royalties as defined herein become due and payable under the terms of this lease, the amount thereof shall be computed on the basis of \$ 1.00 per acre.

Lessor acknowledges payment in full of all delay rentals to be paid under the terms and provisions of this lease, and in consideration thereof agrees that this lease shall continue in full force and effect for the term herein provided without the further payment of any delay rentals and that no conveyance or transfer of all or any part of Lessor's interest in the leased premises or any part thereof shall entitle the grantee or transferee to the payment of any delay rentals hereunder.

## OIL AND GAS LEASE

15th

March

19 82

AGREEMENT, Made and entered into this \_\_\_\_\_ day of \_\_\_\_\_, 19 \_\_\_\_  
 by and between First Interstate Bank of Utah, as Trustee of the  
Thomas E. Jeremy Family Trust  
175 South Main  
Salt Lake City, Utah 84111 Party of the first part, hereinafter called lessor (whether one or more) and  
Gulf Oil Corporation, P.O. Box 2619, Casper, Wyoming 82602 Party of the second part, hereinafter called lessee.

WITNESSETH, That the said lessor, for and in consideration of ----- Ten and More ----- Dollars  
 cash in hand paid, receipt of which is hereby acknowledged and of the covenants and agreements hereinafter contained on the part of the lessee to be paid, kept  
 and performed, has granted, demised, leased, and let unto the said lessee, its successors and assigns, for  
 the sole and only purposes of surveying by geological, geophysical and all other methods, mining and operating for oil, condensate, gas, asphalt, sulphur, and  
 all other minerals or substances, whether similar or dissimilar, that may be produced from any well drilled by lessee on the leased premises hereinafter describ-  
 ed, and laying pipe lines, and building tanks, power stations and structures thereon to produce, save and take care of said products, all that certain tract of  
 land, together with any reversionary rights therein, situate in the County of Duchesne  
 State of Utah, described as follows, to wit:  
Township 3 South, Range 5 West, U.S.M.  
Section 13: E $\frac{1}{2}$ SE $\frac{1}{4}$   
Section 24: East 50 rods of W $\frac{1}{2}$ E $\frac{1}{2}$   
Section 25: W $\frac{1}{2}$ NE $\frac{1}{4}$

This lease covers all of the land described above including any interests therein that any signatory hereto has the right or power to lease, and in addition it  
 covers, and there is hereby granted leased and let, upon the same terms and conditions as herein set forth, all lands now or hereafter owned or claimed by  
 Lessor, adjacent, contiguous, or a part of the tract or tracts described above, whether such additional lands be owned or claimed by deed, limitation, or other-  
 wise, or are fenced or unfenced, and whether such lands are inside or outside of the metes and bounds description set forth above. This lease shall be effective to  
 cover all such land irrespective of the number of acres contained therein, but the land included within this lease is estimated to comprise -260.00-  
 acres, whether actually more or less.

It is agreed that this lease shall remain in force for a term of five (5) years from date, and as long thereafter as oil, condensate, gas, asphalt, sulphur, or other  
 minerals or substances covered hereby, or either or any of them, is produced from said land by the lessee, its successors and assigns.

Lessee covenants and agrees to pay lessor as royalty on all oil, condensate, gas, asphalt and other minerals and substances produced, saved and sold from  
 the Premises one eighth of the gross proceeds received from the sale thereof at the mouth of the well, or, if not sold at the mouth of the well but sold or used off  
 the Premises or for the manufacture of gasoline or any other product, then one eighth of the market value thereof at the mouth of the well; except that the royalty  
 on sulphur shall be 50¢ per long ton marketed; lessor shall have gas free of cost from any gas well producing natural hydrocarbon gas for all stoves and all in-  
 side lights in the principal dwelling house on such land by making his own connections with the well at his own risk and expense.

If no well be commenced on said land on or before one year from the date hereof, this lease shall terminate as to both parties, unless the lessee on or before  
 that date shall pay or tender to the lessor or to the lessor's credit in the First Interstate Bank of Utah  
175 South Main Bank at Salt Lake City, Utah 84111

or its successor or successors, or any bank with which it may be merged, or consolidated or which succeeds to its business or assets or any part thereof, by pur-  
 chase or otherwise, which shall continue as the depository regardless of changes in the ownership of the said land, the sum of -----  
Two Hundred Sixty and no/100 ----- Dollars, 1/6

which shall operate as a rental and cover the privilege of deferring the commencement of a well for twelve months from said date. In like manner and upon like  
 payments or tenders the commencement of a well may be further deferred for like periods of the same number of months successively. And it is understood and  
 agreed that the consideration first recited herein, the down payment, covers not only the privileges granted to the date when said first rental is payable as  
 aforesaid, but also the lessee's option of extending that period as aforesaid, and any and all other rights conferred. Rentals may be paid by check or draft and  
 may be remitted by mail. Mailing of rental on or before the rental-paying date shall be deemed a timely tender thereof and shall preclude termination of this  
 lease. Notwithstanding the death of the lessor, or his successor in interest, the payment or tender of rentals in the manner provided above shall be binding on the  
 heirs, devisees, executors and administrators of such person.

Should any well drilled on the land above described be a dry hole or cease to produce and there are no other producing well or wells on the land or drilling  
 operations are not being conducted thereon, then and in that event if a well is not commenced before the next ensuing rental-paying date after the expiration of  
 ninety (90) days from the date of such dry hole or cessation of production, this lease shall terminate as to both parties, unless the lessee, on or before the rental-  
 paying date next ensuing after the expiration of ninety (90) days from the date of the completion of the dry hole or cessation of production, shall resume the pay-  
 ment of rentals in the same amount and in the same manner as hereinbefore provided, and it is agreed upon resumption of the payment of rentals, as above pro-  
 vided, the last preceding paragraph hereof, governing the payment of rentals and the effect thereof, shall continue in force as though there had been no inter-  
 ruption in the rental payment. If a dry hole should be drilled or if production ceases at any time subsequent to ninety (90) days prior to the beginning of the last  
 year of the primary term, no rental payment or operations are necessary in order to keep the lease in force during the remainder of the primary term. If, after  
 the expiration of the primary term hereof, production shall cease from any cause, this lease shall not terminate if lessee resumes operations for the drilling of a  
 well or restoration of production within ninety (90) days from such cessation, and this lease shall remain in force and effect during the prosecution of such opera-  
 tions and, if production results therefrom, then as long thereafter as such production continues.

If at any time, either before or after the expiration of the primary term of this lease, there is any gas well on the lands covered hereby, or on other lands with  
 which said lands are pooled or unitized, which is capable of producing in paying quantities, but which is shut-in either before or after production therefrom, and  
 the production therefrom is not being sold or used, lessee agrees to pay or tender to the mineral owners in the depository bank named in the lease, as royalty, a  
 sum equal to the amount of delay rentals payable under this lease. Such payments shall be made on or before the shut-in royalty payment date, as herein defin-  
 ed, next accruing after the expiration of ninety (90) days from the date the well was shut-in, unless prior to such date gas from the well is produced and sold or  
 used. In like manner, on or before each succeeding shut-in royalty payment date while such gas well remains shut-in, lessee shall make payment of shut-in gas  
 royalty in the same amount and manner. A shut-in gas well capable of producing in paying quantities shall be considered under all provisions of this lease as a  
 producing well and this lease shall be in force and effect in like manner as though the gas therefrom were actually being produced and sold or used. The term  
 "gas well" shall include wells capable of producing natural gas, condensate, distillate, or any gaseous substance, and wells classified as gas wells by any govern-  
 mental authority. The term "shut-in royalty payment date" shall mean any rental-paying date of this lease if within the primary term, or any subsequent an-  
 niversary thereof, if after the primary term, or any anniversary date of this lease if no rental-paying date is specified herein.

If said lessor owns a less interest in the above described land than the entire and undivided fee simple estate therein, then the royalties and rentals herein  
 provided shall be paid the lessor only in the proportion which his interest bears to the whole and undivided fee. However, such rentals shall be increased at the  
 next succeeding rental anniversary after lessee has been notified of any reversion having occurred to cover the interest so acquired. Any interest in the produc-  
 tion from above described land to which the interest of lessor may be subject shall be deducted from the royalties provided for herein.

Lessee shall have the right to use, free of cost, gas, oil and water produced on said land for its operations thereon, except water from wells of lessor. Lessee  
 shall have the right at any time to remove all machinery and fixtures placed on said premises, including the right to draw and remove casing.

Lessee shall pay for damages caused by its operations to growing crops on said lands. When requested by the lessor, lessee shall bury pipe lines below  
 plow depth. No well shall be drilled nearer than 200 feet to the house or barn now on said premises, without the written consent of the lessor.

Lessee shall have the right to drill to completion with reasonable diligence and dispatch (1) any well commenced within the term of this lease and (2) any  
 well commenced before the completion of a well which has been commenced within such term. If oil, gas or any other minerals or substances covered hereby be  
 found in paying quantities in any such well, this lease shall continue and be in force with like effect as if such well had been completed within the term of year  
 herein first mentioned.

Lessee is hereby granted the right and power at any time and from time to time to unitize or pool this lease, in whole or in part, as to any stratum or strata,  
 with lands or leases adjacent to or in the immediate vicinity of the leased premises, so as to constitute a unit or units not exceeding in area the acreage prescribed  
 or required in any Federal or State law, order, rule or regulation for the drilling or operation of one well or for obtaining the maximum allowable production  
 from one well, or 640 acres (plus a tolerance of 10% where necessary to avoid splitting leases) each, whichever is the larger. Such pooling shall be effected by  
 lessee's executing and filing in the office where this lease is recorded a Pooling Declaration identifying and describing the pooled acreage. The discovery and  
 production of pooled substances and development and operation on any portion of a unit so pooled, including the commencement, drilling, completion and  
 operation of a well thereon and the existence of a shut-in gas well thereon, shall be considered and construed and shall have the same effect, except for the pay-  
 ment of royalty, as discovery, production development, operation and the existence of a shut-in gas well on the leased premises under the terms of this lease.  
 The royalties herein provided shall accrue and be paid to lessor on pooled substances produced from any unit in the proportion, but only in the proportion, that  
 lessor's acreage interest in the covered here d placed in the unit bears to the total acreage of all in the unit

### GENERAL ASSIGNMENT

This General Assignment (this "Assignment") dated to be effective for all purposes as of March 2, 1987 at 7:00 a.m. local time (the "Effective Date") is from THE WALKER ENERGY GROUP, a New York partnership, WALKER EXPLORATION, INC., a Nevada corporation, WALKER ENERGY, INC., a Nevada corporation, WALKER DRILLING PROGRAM 1983-B, LTD., a Nevada Limited Partnership, WALKER DRILLING PROGRAM 1983-C, LTD., a Nevada limited partnership, and WALKER ENERGY OPERATING LTD., a Texas limited partnership, each having an address at 260 North Belt, Houston, Texas 77060 (collectively, "Assignor"), to GAVILAN OPERATING, INC., a Utah corporation, P. O. Box 6107, Salt Lake City, Utah 84106 ("Assignee").

### R E C I T A L S

A. Pursuant to the Amended Earnest Money and Purchase and Sale Agreement (the "Agreement") dated as of February 18, 1987, by and between Walker Energy Group ("Walker") and Assignee, Walker granted Assignee an option, which Assignee has elected to exercise, to purchase certain oil and gas assets and certain claims and causes of action of Assignor (collectively, the "Assets"), as more particularly described in the Agreement.

B. By separate Assignment, Bill of Sale, Deed and Conveyance and Assignment of Mortgage, Security Agreement, Assignment of Rights to Production and Financing Statement (collectively, the "Specific Assignments") of even date herewith, Assignor has conveyed certain specific oil and gas assets to Assignee.

C. In order to complete the conveyance of the remaining Assets to Assignee, Assignor now desires to execute and deliver this Assignment to Assignee.

### Assignment

FOR TEN DOLLARS and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged by Assignor, Assignor hereby transfers, grants, conveys, sells, assigns and quitclaims to Assignee all of Assignor's right, title and interest in, to and under the following (all of which are herein called the "Assets"):

ENTRY NO. 260412 DATE 6/1/87 TIME 2:15 PM BOOK 218 PAGE 241  
RECORDED AT REQUEST OF JAMES W. HARRIS, HARRIS & HARRIS, LLP  
JAMES W. HARRIS, HARRIS & HARRIS, LLP  
DUCHESNE COUNTY RECORDER DEPUTY

a. All right, title and interest of Assignor in and to the Roosevelt Federal Oil and Gas Unit located in Duchesne and Uintah Counties, Utah; the East Gusher prospect comprised of Section 2, Township 6 South, Range 20 East, S.L.M., in Uintah County, Utah; and the North Duchesne prospect comprised of Sections 1, 12, 13 and 25, Township 3 South, Range 5 West, U.S.M. in Duchesne County, Utah, together with all of Walker's right, title and interest in and to all leases, licenses, permits, farmout agreements, options and other agreements pertaining thereto, and identical undivided interests in and to all personal property, equipment, fixtures and improvements relating to oil or gas operations and located thereon; to the extent not otherwise conveyed by the Specific Assignments.

b. All right, title and interest of Assignor, to the extent the same are transferrable, in, to and under the agreements and contracts relating to or associated with the Interests assigned to Assignee above or under the Specific Assignments, with full substitution and subrogation of Assignee, including without limitation the agreements described on Exhibit A attached hereto and incorporated herein;

c. All rights, claims and causes of action (whether yet accrued or asserted) which Assignor now has or may hereafter acquire against the bankruptcy estate of Paiute Oil and Mining Corporation, a Utah corporation (the "Estate"), or its successors, assigns, or any other person or entity claiming an interest in the Estate, in the bankruptcy proceedings under Chapters 7 and 11 of the United States Bankruptcy Code in Case No. 84C-02620 before the United States Bankruptcy Court for the District of Utah, Central Division, as set forth in Walker's Proof of Claim dated February 28, 1985, as the same has been and may hereafter be amended and supplemented (the "Administrative Claim"), excepting and reserving to Walker any receivables attributable to production of hydrocarbons, prior to the Effective Date, from or attributable to the Interests subject to the Specific Assignments;

d. Any collateral, guaranty or other security that Assignor has or may acquire to secure or assure payment of its claims against the Estate; and

e. All other rights, claims and causes of action (whether known or unknown) that Assignor has or may acquire against the Estate, or any other person (whether or not known to the Bank), for payment of the Administrative Claim, or in connection with Assignor's business dealings with

the Estate or its predecessors in interest, or arising out of the facts giving rise to Assignor's claims against the Estate.

TO HAVE AND TO HOLD the Assets unto Assignee and its assigns forever.

1. Assignor and Assignee agree that, to the extent required by applicable law to be operative, the disclaimers of certain warranties contained in this paragraph are "conspicuous" disclaimers for the purposes of any applicable law, rule or order. The Interests are conveyed to Assignee without covenant or warranty of any kind, express or implied. WITHOUT LIMITATION OF THE GENERALITY OF THE IMMEDIATELY PRECEDING SENTENCE, ASSIGNOR EXPRESSLY DISCLAIMS AND NEGATES AS TO PERSONAL PROPERTY AND FIXTURES (A) ANY IMPLIED OR EXPRESS WARRANTY OF MERCHANTABILITY, (B) ANY IMPLIED OR EXPRESS WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE, AND (C) ANY IMPLIED OR EXPRESS WARRANTY OF CONFORMITY TO MODELS OR SAMPLES OF MATERIALS.

2. Assignor also expressly grants and transfers to Assignee, its successors and assigns, with full substitution and subrogation of Assignee, and all persons claiming by, through and under Assignee, to the extent so transferable, the benefit of and the right to enforce the covenants and warranties, if any, which Assignor is entitled to enforce with respect to the Assets against Assignor's predecessors in title to the Assets.

3. By accepting delivery of this Assignment, Assignee hereby assumes and agrees to pay, perform and discharge all obligations relating to lease rentals, royalties, taxes and other such items, if any, attributable to the Assets accruing after the Effective Date.

4. This Assignment shall bind and inure to the benefit of Assignor and Assignee and their respective successors and assigns.

5. This Assignment is not, nor shall it be construed to be, a novation or payment of or under Assignor's rights, claims, benefits, defenses and causes of action arising from or related to the Estate.

6. This Assignment is made subject to the terms and conditions of the Agreement and it is the express intent of the parties that their respective obligations under the Agreement shall survive the execution and delivery of this Assignment and the Specific Assignments and shall not be deemed to

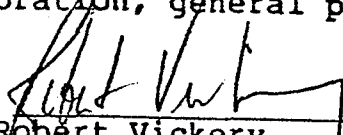

have been extinguished thereby, whether by merger of contract or otherwise.

7. Assignor shall execute such other and further documents as Assignee may reasonably request to fully effectuate the intended purposes of this Assignment and the Agreement.

EXECUTED on March 2, 1987, to be effective for all purposes as of the Effective Date.

Duchesne County, Utah

Gentlemen:

Approval to drill the above referenced oil/gas well is hereby granted in accordance with Order of Cause No. 139-8 dated September 20, 1972 subject to the following stipulations:

1. Prior to commencement of drilling, receipt by the Division of evidence providing assurance of an adequate and approved supply of water.

In addition, the following actions are necessary to fully comply with this approval:

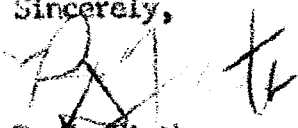

1. Spudding notification to the Division within 24 hours after drilling operations commence.
2. Submittal to the Division of completed Form OGC-8-X, Report of Water Encountered During Drilling.
3. Prompt notification to the Division should you determine that it is necessary to plug and abandon this well. Notify John E. Baze, Petroleum Engineer, (Office) (201) 533-5771, (Home) 298-7695 or R. J. Firth, Associate Director, (Home) 571-6068.
4. Compliance with the requirements and regulations of Rule C-27, Associated Gas Flaring, General Rules and Regulations, Oil and Gas Conservation.

Page 2

Gentlemen:

Re: Well No. Walker #25-7 - Sec. 25, T. 3s., R. 5W  
Duchesne County, Utah - API #43-013-30972

Our records indicate that you have not filed drilling reports for the months of October 1984 to the present on the above referred to well. Our rules and regulations stipulate that these reports be filed by the sixteenth of each month until the well is completed.

Enclosed are forms for your convenience in filing the necessary reports as soon as possible but no later than March 5, 1985.

Thank you for your cooperation in this matter.

Sincerely,

Claudia L. Jones  
Well Records Specialist

Gentlemen:

Re: Well No. Paiute Walker #25-7 - Sec. 25, T. 3S, R. 5W  
Duchesne County, Utah - API #43-013-30972

A records review indicates that no required reports for the referenced well have been filed since October 1985. Monthly drilling reports must be submitted to account for the time between spudding and well completion.

Rule 312 of the Oil and Gas Conservation General Rules requires that Form DOGM-3 "Well Completion or Recompletion Report and Log", or copy of the equivalent federal form, along with copies of logs and tests run, be filed with this office not later than 90 days after suspension of drilling, or well completion.

Please submit the required drilling reports and well completion report, including copies of logs and tests which may have been run on the referenced well, not later than April 21, 1986. Address the required response to:

TO: Well File  
THROUGH: John Baza *JB*  
FROM: Jim Thompson *Jim T.*  
RE: Gavilan Petroleum Well No. 25-7, Sec. 25, T. 3S, R. 5W,  
Duchesne County, Utah

Mr. Scott Seeby was contacted concerning the present and future status of the #25-7 well. Although the well has been spudded, and other major work completed; the cellar and reserve pit remain open. Gavilan does not intend to drill this well in the near future, so it was asked that the cellar be backfilled until drilling operations commence.

The okay was given by Jim Thompson with the understanding that the reserve pit would be backfilled upon completion of the well.

Mr. Seeby stated that the cellar would be taken care of as soon as possible.

Re: Well Review Committee

*rescheduled  
Held May 4, 1988*

A Well Review Committee meeting has been scheduled for Friday, April 28, at 2:00 pm.  
Attached is a list of five wells for review.

Also attached are (1) a list of all wells we have reviewed and (2) notes from previous meetings on unresolved wells. These are taken from my new Well Review Committee dBase file.

# WELL REVIEW COMMITTEE

APRIL 18, 1989

Sept 1987 prod. report sent in by Gavilan - no prod. nothing in files to indicate operation change.

PAIUTE OIL & MINING - Paiute Walker #13-ND-1, Sec. 13, T. 3S, R. 5W, Duchesne County - API #43-013-30971. Paiute Bond was changed to Gavilan Petroleum, Inc. for \$50,000. APD approved 7-3-84. Well Spudded 7-13-84. Drilled to 9234'. Sundries dated from 8-84 thru 10-85 states that they are waiting on completion of the well. Letter's sent 12-30-85, 4-3-86, 8-12-86, and 9-10-86 regarding the Well Completion Report that has not been filed with this office or the well. Memo to file dated 9-22-87 from Jim Thompson giving okay for the reserve pit to remain open at this time. The well is scheduled to be completed later on this year. Gavilan Petroleum phoned into Well Records to advise the Division that they (Gavilan) has acquired 13-ND-1 from a bankruptcy court. Gavilan Petroleum sold this well in 11-87. They stated they would send in a Sundry Notice notifying us of the change. Inspection by Frank Matthews on 3-29-89, stated that the reserve pit is not covered and has oil in the bottom of the pit which has been burned. Frank could not determine whether or not a 7" casing was run per APD. Completion Report is needed.

Fee Lease  
per Gavilan  
sundry & 1-13-88  
well does not  
have an operator.

PAIUTE OIL & MINING - Paiute-Walker #25-7, Sec. 25, T. 3S, R. 5W, Duchesne County - API #43-013-30972. Pauite Bond was changed to Gavilan Petroleum, Inc. for \$50,000. APD approved 7-6-84. Well spudded 7-13-84. Sundry Notices dated 8-84 thru 10-85, states they are waiting on rig, working on load and legal problems and waiting on completion. Letters sent 12-85, 4-86 and 8-86 regarding the Well Completion Report that has not been filed with this office or the well. Inspections by Jim Thompson on 8-84 and 9-84, stated that they had spudded, reserve pit dug not lined, cellar and conductor pipe are still in the same place. Inspection by Bill Moore on 9-86 states the reserve pit is still open and unused, the surface casing set, hole left open. Inspection by Glenn Goodwin on 9-87 states that the pit is still open, conductor set, plate welded on top. Memo to file dated 9-87 from Jim Thompson, contacting Mr. Seeby concerning the present future of the well. Gavilan does not intend to drill this well in the near future, so it was asked that the cellar be back filled until drilling operations commence. Jim Thompson gave okay that the reserve pit be back filled upon completion of the well. Mr. Seeby said the cellar would be taken care of as soon as possible. No further information.

land

UTEX OIL - Echeverria #2-17B5, Sec. 17, T. 2S, R. 5W, Duchesne County, - API #43-013-31157. Blanket Bond \$50,000. APD approved 1-22-86. Well spudded 2-1-86. Inspection by Dorothy Swindel on 3-4-86, states the rig is stacked on location, has not been rigged up, tank grade is built above steep bank, reserve pit has no liner, conductor pipe set. Letter sent 9-17-86, regarding required reports for the well from the time between the spud and the well completion inspection by Jim Thompson on 8-6-86, states the well is spudded, cellar and conductor pipe set, reserve pit is dug and tank grade set. Jim spoke with Utex concerning the well, there is no immediate plans to drill this well. Sundry Notice dated 9-26-86, states the location was built and conductor pipe set, however never spudded with a drilling rig, at this time there are no plans to drill this well. Inspection by Bill Moore on 10-28-86 states, the location built, surface casing set, pit built, not used, unlined, tank grade built. On 4-30-87, Bill Moore contacted Steve Tipton of Utex concerning status on the well, Mr. Tipton said Utex is keeping the well under there bond in operation suspended status for now. No further information.

Oil and Gas Bond

Gentlemen:

Gavilan Petroleum, Inc. has recently submitted a \$50,000 Letter of Credit from Wells Fargo Bank to replace its existing oil & gas bond with the Division of Oil, Gas & Mining. This Letter of Credit is intended to cover the statewide bonding requirements for the existing three wells (North Duchesne #1-7, North Duchesne #13-1, North Duchesne #25-7) which are covered by Gavilan's current bond written by Aetna Life and Casualty.

Please accept the Wells Fargo Letter of Credit as a replacement for the existing Bond and provide both Gavilan and Aetna with a full release of the existing bond.

If you have any questions regarding this matter, please do not hesitate to contact me.

Sincerely,

GAVILAN PETROLEUM INC.

Re: Notification of Sale or Transfer of Lease Interest - Paiute 25-7 Well, Section 25, Township 3 South, Range 5 West, Duchesne County, Utah

The division has received notification of a change of operator from Paiute Oil & Mining Corporation to Gavilan Petroleum, Inc. for the referenced well which is located on a fee lease.

Rule R615-2-10, of the Utah Oil and Gas Conservation General Rules, requires that the owner of a lease provide notification to any person with an interest in such lease, when all or part of that interest in the lease is sold or transferred.

This letter is written to advise Paiute Oil & Mining Corporation of its responsibility to notify all individuals with an interest in this lease of the change of operator. Please provide written documentation of this notification to the division no later than February 10, 1990.

Sincerely,

Don Staley

Sundry of 1-18-88,  
well does not  
have an operator.*

PAIUTE OIL & MINING - Paiute Walker #13-ND-1, Sec. 13, T. 3S, R. 5W, Duchesne County - API #43-013-30971. Paiute Bond was changed to Gavilan Petroleum, Inc. for \$50,000. APD approved 7-3-84. Well Spudded 7-13-84. Drilled to 9234'. Sundries dated from 8-84 thru 10-85 states that they are waiting on completion of the well. Letter's sent 12-30-85, 4-3-86, 8-12-86, and 9-10-86 regarding the Well Completion Report that has not been filed with this office or the well. Memo to file dated 9-22-87 from Jim Thompson giving okay for the reserve pit to remain open at this time. The well is scheduled to be completed later on this year. Gavilan Petroleum phoned into Well Records to advise the Division that they (Gavilan) has acquired 13-ND-1 from a bankruptcy court. Gavilan Petroleum sold this well in 11-87. They stated they would send in a Sundry Notice notifying us of the change. Inspection by Frank Matthews on 3-29-89, stated that the reserve pit is not covered and has oil in the bottom of the pit which has been burned. Frank could not determine whether or not a 7" casing was run per APD. Completion Report is needed.

*Fee Lease*

PAIUTE OIL & MINING - Paiute-Walker #25-7, Sec. 25, T. 3S, R. 5W, Duchesne County - API #43-013-30972. Pauite Bond was changed to Gavilan Petroleum, Inc. for \$50,000. APD approved 7-6-84. Well spudded 7-13-84. Sundry Notices dated 8-84 thru 10-85, states they are waiting on rig, working on load and legal problems and waiting on completion. Letters sent 12-85, 4-86 and 8-86 regarding the Well Completion Report that has not been filed with this office or the well. Inspections by Jim Thompson on 8-84 and 9-84, stated that they had spudded, reserve pit dug not lined, cellar and conductor pipe are still in the same place. Inspection by Bill Moore on 9-86 states the reserve pit is still open and unused, the surface casing set, hole left open. Inspection by Glenn Goodwin on 9-87 states that the pit is still open, conductor set, plate welded on top. Memo to file dated 9-87 from Jim Thompson, contacting Mr. Seeby concerning the present future of the well. Gavilan does not intend to drill this well in the near future, so it was asked that the cellar be back filled until drilling operations commence. Jim Thompson gave okay that the reserve pit be back filled upon completion of the well. Mr. Seeby said the cellar would be taken care of as soon as possible. No further information.

*Fee Lease*

UTEX OIL - Echeverria #2-17B5, Sec. 17, T. 2S, R. 5W, Duchesne County, - API #43-013-31157. Blanket Bond \$50,000. APD approved 1-22-86. Well spudded 2-1-86. Inspection by Dorothy Swindel on 3-4-86, states the rig is stacked on location, has not been rigged up, tank grade is built above steep bank, reserve pit has no liner, conductor pipe set. Letter sent 9-17-86, regarding required reports for the well from the time between the spud and the well completion inspection by Jim Thompson on 8-6-86, states the well is spudded, cellar and conductor pipe set, reserve pit is dug and tank grade set. Jim spoke with Utex concerning the well, there is no immediate plans to drill this well. Sundry Notice dated 9-26-86, states the location was built and conductor pipe set, however never spudded with a drilling rig, at this time there are no plans to drill this well. Inspection by Bill Moore on 10-28-86 states, the location built, surface casing set, pit built, not used, unlined, tank grade built. On 4-30-87, Bill Moore contacted Steve Tipton of Utex concerning status on the well, Mr. Tipton said Utex is keeping the well under there bond in operation suspended status for now. No further information.

RE: Plugging Date

Spoke to Bob Jewett of Gavilan Petroleum, and asked him for a plugging date for the above referenced well. He stated that they don't have much information on this well, but he would check and call me back.

Bob called and said the only file they have on this well is one they created to file the operator change when they took over the well. The well was plugged when they bought it in 1987. Bob and I agreed to use the first date a Division Inspector stated the well had a plate welded on top of the pipe. Therefore, the well will be considered plugged as of 9-2-87.

MEMO TO FILE 43-013-30972 Paiute Walker 25-7

From: Earlene Russell

ER

Date: August 11, 2004

BACKGROUND:

The Oil and Gas Information System (OGIS) was checked for wells that would affect the bond release/cancellation of the Gavilan Petroleum, Inc and Road Runner Oil, Inc bond #574338 in the amount of \$80,000.

The Duchesne wells operated by Road Runner/Gavilan are being plugging and operator change of Roosevelt Unit wells to Elk Production is in transition. On August 4, 2004, I provided a list of wells for operator change to Tom Clawson, attorney for Elk Production, to check with the negotiated wells in the sale from Road Runner/Gavilan to Elk Petroleum.

PROBLEM:

This well (43-013-30972) showed as "PA" September 2, 1987 and normally wouldn't be transferred during an operator change. Procedures for operator changes require me to look at LA and PA wells and in some instances have inspections on those, especially if a bond release is pending. [March 17, 2004 a cancellation notice was received from the bond agent.] Inspections in RBDMS show the well was "TA" not "PA". I then sent an e-mail to Dan Jarvis to have an inspection or some determination as to the status of the well vs. OGIS.

Dan pulled the well file and had Dennis do an inspection August 6, 2004. The well file gave no indication of plugging and the inspection shows the well in TA Status with the collar still around the pipe and a plate on top of the pipe.

POSSIBLE RESOLUTION:

John Baza would like Dustin Doucet to do an engineering review to determine the downhole status of the wellbore. Based on that, Don Staley will change the status on OGIS to correctly depict what is the actual status of the wellbore.

*Well status changed in  
database from PA to TA  
as of 11/10/2004;  
Production Turnaround  
report will not be  
sent to operator*

*BT's 11/10/2004*

As requested by John Baza in response to Division concerns on this matter, I have compiled the following history and determination on the above referenced well. I have separated my discussion into three parts, 1) Current status of the well, 2) History of the well and 3) Conclusions.

**CURRENT STATUS**

This well is currently listed as PA in our system. A recent inspection (September 15, 2004) found this well with a plate welded over the 20" conductor pipe, an open cellar and open reserve pits. The well also had 9 5/8" surface casing reported set in September of 1984 but because of the plate could not be confirmed by this inspection. This well is currently attached to an \$80,000 Gulf Insurance bond (Bond # 574338) for Road Runner/Gavillan Petroleum. This bond is a blanket bond and covers 4 other wells including the Paiute Walker 1-7 (PA), the Birch 1-25 (PA), the Sorensen 1-5 (SOW) and the Sorensen 1-6 (SOW).

**HISTORY**

**Drilling**

This well was spud on July 13, 1984. The rig was shut down for repairs on July 31, 1984 and according to records never resumed work. A subsequent spud notice submitted in September of 1984 stated 80' of 20" conductor and 2000' of 9 5/8" surface casing had been set. A Well Completion Report was never filed for this well.

**Ownership**

Paiute Oil & Mineral Corp. ("Paiute") had operating rights through a farm out agreement with Gulf Oil Company and an operating agreement with Walker Energy Group ("Walker"). The APD was approved July 6, 1984 for Paiute. Paiute submitted monthly status reports until October 31, 1985. In February of 1985, Walker filed for bankruptcy. Effective March 1987 all rights and property associated with the Paiute Walker 25-7 well were assigned to Gavillan Operating, Inc. through the bankruptcy court. As of September 22, 1987, the Division was corresponding with Gavillan as operator of the well (note: a copy of the bankruptcy court general assignment is in the file and dated June 1, 1987). Subsequent requests from the Division proffered a change of operator Sundry from Paiute naming Gavillan as operator on 10/31/89 even though it appears the Division recognized Gavillan as such since 1987.

## Status of Well

All inspections dating from September of 1986 through November of 1991 listed this well as a SOW. In September of 1987, Jim Thompson of the Division spoke with Scott Seebly of Gavillan. An agreement was reached to allow the reserve pit to remain open until Gavillan finished drilling this well, however, the cellar would need to be backfilled until that time. There was no mention of it being plugged at this time, nor would it have made sense given they were still planning on completing this well. In January of 1990, Jay Mealey of Gavillan stated the well was never drilled. In January of 1991, Jay Mealey claimed that only 80' of conductor had been set and that it had been cemented to surface with a plate welded on top. In January of 1992, Vicky Carney of the Division spoke with Bob Jewett of Gavillan who claimed the well was plugged and abandoned (PA). Based off of that discussion, Vicky made the decision that the well should be considered PA effective the date the inspector first found the plate welded on top of the casing (September 1987). Although this was the first time an inspector documented the plate, the plate was present, as evidenced by the slides in the well file, at the time of the September 1986 inspection. There is no evidence of exactly when the plate was welded on top. Once again, the inspectors noted this well as SOW. The location currently has open reserve pits, an open cellar and does not have a regulation dry hole marker as required by rule R649-3-24-7 (see photos from September 2004 inspection in Attachment A).

## CONCLUSIONS

I find that the decision to show this well as PA was not based on any real evidence that the well was indeed PA. There isn't any paperwork in the file that supports this well being PA. All the evidence leans towards this well being shut-in (SI). The only basis for the decision to change the status of the well to PA I could find were 1) the well had a plate welded on the casing and 2) a discussion with a gentleman that claimed to have no knowledge of the well except that it was PA.

Gavillans' history of the well is very inconsistent. Their status ranged from the well never being drilled to the well being PA. The fact that Paiute was waiting for a rig to complete the drilling of this well until their bankruptcy in 1987 and the fact that Gavillan also expressed an interest in completing the drilling upon taking over in 1987 leads me to believe that the well was SI not PA. The only consistency in this case was from the inspectors who considered this well SI even after the determination was made to call it PA. I think we must take the inspectors knowledge of this well from the drilling through the last inspection in 1991 and consider this well SI as they did until conclusive evidence proves otherwise.

- Due to the fact that no paperwork was submitted supporting PA of this well and the fact that reclamation of the site and a regulation dry hole marker are still outstanding, the well status of this well should be changed back to SI. The plate should be removed from the conductor casing and the well evaluated and properly plugged upon commencement of the final PA. Gavillan was shown to be the rightful owner of the mineral rights and well bore under the assignment from the bankruptcy court. Gavillan subsequently submitted bonding for this well. Gavillan is the responsible party for this well and this well should be considered SI and remain under the current \$80,000 bond (Bond # 574338) as such.

→ Bond release must be reviewed with Associate Director prior to taking action -

one word to explain this, JIimmie

>>> Don Staley 8/9/2004 3:42:41 PM >>>

Just write a "memo to file" explaining the problem, attach a copy of the latest inspection report, and send it to me. I'll change the status. I can't believe nobody discovered this sooner!

>>> Earlene Russell 8/9/2004 2:32:57 PM >>>

Don,

Who would change the status of this **fee** well from PA back to TA? What justification do you need to authorize the change?

Dennis took pictures while doing and inspection. Dan also pulled the file. The well status is incorrect.

I will notify Tom Clawson that this well needs to be addressed with the closing of Road Runner and Gavilan's activities. He can pass the word to whoever else needs the information.  
ER

>>> Dan Jarvis 08/09/04 10:48AM >>>

This well is NOT plugged, contrary to what the file says. If someone would have listened to Lisha in 1992 this would not be a problem now. I have file and photos.

>>> Earlene Russell 8/4/2004 2:23:39 PM >>>

Dan, there is one fee PA well (not shown on the list) that needs to be inspected - 4301330972 Paiute Walker 25-7. The system says PA but inspections say TA. Please render an opinion.

>>> Earlene Russell 08/04/04 02:18PM >>>

>>> to: Tom Clawson >>>

Tom,

I am attaching a list of those wells currently showing under these two operators. We need a Form 9 Sundry for all wells (you can attach a list) signed by the old operator and the new operator. Include effective date and bond number. Elk Production should send a copy (only a copy) of their BIA bond when they get it.

Call me if you have any questions. 538-5336.

**Subject:** Gavilan - Paiute Walker 25-7 Well...

FYI...

As per Dustin's evaluation and memo to file and our management meeting discussion, I have changed the status of Gavilan's Paiute Walker 25-7 well (API 4301330972) from PA to TA in the database. Rather than deleting Gavilan's address from the database to prevent a production turn-around report from being mailed out (as per John's request), Carolyn said that she will just remember to not send it out when it is printed. She will, however, enter a TA status for this well each month into the production database.

---

As requested by John Baza in response to Division concerns on this matter, I have compiled the following history and determination on the above referenced well. I have separated my discussion into three parts, 1) Current status of the well, 2) History of the well and 3) Conclusions.

### CURRENT STATUS

This well is currently listed as PA in our system. A recent inspection (September 15, 2004) found this well with a plate welded over the 20" conductor pipe, an open cellar and open reserve pits. The well also had 9 5/8" surface casing reported set in September of 1984 but because of the plate could not be confirmed by this inspection. This well is currently attached to an \$80,000 Gulf Insurance bond (Bond # 574338) for Road Runner/Gavillan Petroleum. This bond is a blanket bond and covers 4 other wells including the Paiute Walker 1-7 (PA), the Birch 1-25 (PA), the Sorensen 1-5 (SOW) and the Sorensen 1-6 (SOW).

### HISTORY

#### **Drilling**

This well was spud on July 13, 1984. The rig was shut down for repairs on July 31, 1984 and according to records never resumed work. A subsequent spud notice submitted in September of 1984 stated 80' of 20" conductor and 2000' of 9 5/8" surface casing had been set. A Well Completion Report was never filed for this well.

#### **Ownership**

Paiute Oil & Mineral Corp. ("Paiute") had operating rights through a farm out agreement with Gulf Oil Company and an operating agreement with Walker Energy Group ("Walker"). The APD was approved July 6, 1984 for Paiute. Paiute submitted monthly status reports until October 31, 1985. In February of 1985, Walker filed for bankruptcy. Effective March 1987 all rights and property associated with the Paiute Walker 25-7 well were assigned to Gavillan Operating, Inc. through the bankruptcy court. As of September 22, 1987, the Division was corresponding with Gavillan as operator of the well (note: a copy of the bankruptcy court general assignment is in the file and dated June 1, 1987). Subsequent requests from the Division proffered a change of operator Sundry from Paiute naming Gavillan as operator on 10/31/89 even though it appears the Division recognized Gavillan as such since 1987.

## **Status of Well**

All inspections dating from September of 1986 through November of 1991 listed this well as a SOW. In September of 1987, Jim Thompson of the Division spoke with Scott Seeby of Gavillan. An agreement was reached to allow the reserve pit to remain open until Gavillan finished drilling this well, however, the cellar would need to be backfilled until that time. There was no mention of it being plugged at this time, nor would it have made sense given they were still planning on completing this well. In January of 1990, Jay Mealey of Gavillan stated the well was never drilled. In January of 1991, Jay Mealey claimed that only 80' of conductor had been set and that it had been cemented to surface with a plate welded on top. In January of 1992, Vicky Carney of the Division spoke with Bob Jewett of Gavillan who claimed the well was plugged and abandoned (PA). Based off of that discussion, Vicky made the decision that the well should be considered PA effective the date the inspector first found the plate welded on top of the casing (September 1987). Although this was the first time an inspector documented the plate, the plate was present, as evidenced by the slides in the well file, at the time of the September 1986 inspection. There is no evidence of exactly when the plate was welded on top. Once again, the inspectors noted this well as SOW. The location currently has open reserve pits, an open cellar and does not have a regulation dry hole marker as required by rule R649-3-24-7 (see photos from September 2004 inspection in Attachment A).

## **CONCLUSIONS**

I find that the decision to show this well as PA was not based on any real evidence that the well was indeed PA. There isn't any paperwork in the file that supports this well being PA. All the evidence leans towards this well being shut-in (SI). The only basis for the decision to change the status of the well to PA I could find were 1) the well had a plate welded on the casing and 2) a discussion with a gentleman that claimed to have no knowledge of the well except that it was PA.

Gavillans' history of the well is very inconsistent. Their status ranged from the well never being drilled to the well being PA. The fact that Paiute was waiting for a rig to complete the drilling of this well until their bankruptcy in 1987 and the fact that Gavillan also expressed an interest in completing the drilling upon taking over in 1987 leads me to believe that the well was SI not PA. The only consistency in this case was from the inspectors who considered this well SI even after the determination was made to call it PA. I think we must take the inspectors knowledge of this well from the drilling through the last inspection in 1991 and consider this well SI as they did until conclusive evidence proves otherwise.

- Due to the fact that no paperwork was submitted supporting PA of this well and the fact that reclamation of the site and a regulation dry hole marker are still outstanding, the well status of this well should be changed back to SI. The plate should be removed from the conductor casing and the well evaluated and properly plugged upon commencement of the final PA. Gavillan was shown to be the rightful owner of the mineral rights and well bore under the assignment from the bankruptcy court. Gavillan subsequently submitted bonding for this well. Gavillan is the responsible party for this well and this well should be considered SI and remain under the current \$80,000 bond (Bond # 574338) as such.

welded over hole
- 4/18/89 - Well review Committee - Private Bond changed to  
Gavilan (when?) for \$50,000.  
inspections 8/84, 9/84 and 9/86, ~~9/86~~ <sup>continued</sup> - <sup>unlined pit</sup> unused  
cellar open, Conductor Surface Set and open  
Inspection 9/87 - difference plate welded on top  
of surface CSG.  
DTS to verify Bond in place  
JLT Check who holds lease - if Gavilan listed  
as lessee - should assume the operator
- 10/30/89 - Letter from Gavilan Pet (Jay Mealey) <sup>requesting</sup> ~~acting~~  
<sup>release</sup> replacement of current bond w/ \$50,000 <sup>from death life casualty</sup> ~~LOI~~ LOC  
including North Dunes 25-7
- 10/31/89 - effective 10/31/89 Sendry from Private Oil (Bob Jewett)  
Gavilan operator of well
- 1/11/90 - Letter from DORM (DTS) regarding notice to all  
1/22/90 owners of lease of change of operator
- 1/24/90 - Reply from Gavilan (Jay Mealey) - leases have expired  
well was never drilled - Gav. no reason to notify anyone of operator change

1/16/91 - Sundry from Gavilan (Jay Mealey) → well <sup>80' conductor</sup> owned by Parite acquired by Gav in '87. The hole was subsequently cemented to surface with steel plate across top - Well is PA and should be removed from inactive Doorn list

1/7/92 - Memo to file <sup>(Mick Carney)</sup> - discussion w/ Bob Jewett of Gavilan (also w/ Parite) requesting P: A date info. Bob stated the only file they had was <sup>created in</sup> ~~same~~ 1987 when they took over well. Well was plugged when they bought it. Agreed to consider well plugged when inspector first noticed plate on top (9-2-87).

1/13/92 - Lisa Stated 11/91 inspection stated well not PA - Jimmy stated well is plugged
